PATENT
454313-2280.1

That ID-DLO Institute for Animal Science and Health has a place of business at Edelhertweg 15, NL-8200 AB Lylystad, Netherlands;

That Merial and ID-DLO Institute for Animal Science and Health are the assignees of the entire right, title and interest in, to and under the present application, U.S. Application Serial No. 09/596,479, as a divisional of U.S. Application Serial No. 09/232,469, filed July 15, 1999, now U.S. Patent No. 6,451,770, by virtue of the assignment from the inventors as set out at Reel 010082 and Frame 0321, where said assignment was recorded at the U.S. Patent and Trademark Office on July 7, 1999;

That Merial and ID-DLO Institute for Animal Science and Health hereby disclaim the terminal part of any patent granted on the present application which would extend beyond the expiration date of the full statutory term of the '770 patent;

That Merial and ID-DLO Institute for Animal Science and Health hereby agree that any patent so granted on the present application shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to the '770 patent, this agreement to run with any patent granted on the present application and to be binding upon the grantee, its successors or assigns;

That no terminal part of any patent granted on the present application is disclaimed prior to the full statutory term of the '770 patent, in the event that said '770 patent earlier expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or is terminally disclaimed under 37 C.F.R. §1.321(a), has all claims cancelled by a reexamination certificate, or is otherwise terminated prior to expiration of its full statutory term, except for the separation of legal title stated above;

In accordance with 37 C.F.R. § 3.73(b), the undersigned attorney of record, empowered to sign this Statement on behalf of the assignees, states that Merial and ID-DLO Institute for Animal Science and Health are the assignees of the entire right, title and interest in the patent and patent application identified above (the '770 patent and the present application) by virtue of the assignment identified above.

And thus, that the undersigned has reviewed documents in the chain of title of the patent and patent application identified above and, to the best of the undersigned's knowledge and belief, title is in the assignees identified above.
